

I am worried the FCC is trying to change our No Call Law. I am on the No Call List and like it just the way it is. My home life is quieter, I can deal with my infant without having to jump up and answer 20 UNWANTED calls a day(I only get about 1 a day now.) Please do not change this. I hate being harrassed by telemarketers. Any product or service I want I initiate the call for. Many telemarketers are rude, won't take NO for an answer, and I have even been signed up for services AFTER I had said NO THANK YOU. I don't want to go back to this!! Please leave Indiana's No Call Law alone. Thank You
